La forza innovativa dei colori scelti, l'alternarsi di finiture che riproducono il calore del legno, la raffinatezza della laccatura nei colori opachi o l'eleganza in quelli lucidi, abbinati alla vasta liberta' compositiva della modulistica, permettono con Alma di realizzare composizioni che esprimono al meglio la propria personalita', adattandoli con versatilita' ad ambienti e funzioni che oltre ad essere attuali nel design si distinguono per praticita' e cura dei dettagli . L' anta in melaminico ha bordi colore in abs per renderla attuale e pratica da detergere. I moduli a giorno permettono soluzioni compositive anche per il living, movimentate con risultati molto gradevoli e attuali.

### CREO ECOLOGIC

IL GRUPPO LUBE HA SCELTO DI UTILIZZARE PER I COMPONENTI COSTITUENTI LE STRUTTURE DELLE CUCINE SOLO MATERIALE A BASSISSIMA EMISSIONE DI FORMALDEIDE: CONFORMI ALLO STANDARD F4STELLE SECONDO LA NORMA JIS, CERTIFICATO DAL MINISTERO GIAPPONESE, IL PIU' SEVERO IN MERITO ALLE NORMATIVE DI SALVAGUARDIA AMBIENTALE.

Regarding the production of its kitchen structure components, lube group has decided to only use materials featuring very low formaldehyde emissions complying with the 4-star standard, as defined by the jis regulation. This standard is certified by the japanese government-the most rigorous when it comes to environmental protection.

The innovative force of its colours, alternation of finishes featuring the warmth of wood, refined lacquer finish in matt and glossy colours, combined with a modular structure, make Alma the ideal solution for highly personal compositions, adapted to spaces and functions which are not only modern in design but stand out for their practicality and attention to detail.

The melamine door has coloured abs edging for a modern look and easy to clean. The open units are also suitable for living room, with their lively and very modern styling.
